

Jake

Written by AFTR

Jake was surrendered by his owner to a local Maryland shelter. We were told that he is good with children but not housebroken at 9 years old. He was vaccinated on a regular basis and groomed, but he was intact and desperately needed dental care. So an appointment was made and Linda took him to the vet.

Jake's neutering surgery turned out to be complicated due to the fact that one of his testicles hadn't descended. With his age and the undescended testicle, what we thought would be a simple neutering turned into exploratory surgery. He came through it like a champ and was sent home.
